S.No: 33	Exp. Name: *Write a C program to demonstrate Functions without arguments and without return value*	Date:2023-01-06

Aim:

Write a **C** program to demonstrate functions without arguments and without return value.

Write the functions **print()** and **hello()**.

The output is:

```
...***...
Hello! CodeTantra
...***...
```

Source Code:

FunctionCategories2.c

```c
#include <stdio.h>
// Write the functions

void main() {
    print();
    hello();
    print();
}
void print()
{
    printf("...***...\n");
}
void hello()
{
    printf("Hello! CodeTantra\n");
}
```

Execution Results - All test cases have succeeded!

Test Case - 1
User Output
...***...
Hello! CodeTantra
...***...
